

## Strategic Development Plan for the Aquaculture in the Canary Islands

<i>Date :</i>	2014
<i>Location :</i>	Canary Islands, Spain
<i>Client :</i>	Canary Islands Government
<i>Description :</i>	<p>The aim of this project is the development of the Strategic Plan for Aquaculture in the Canary Islands (PEACAN) for the period 2014-2020 based on the European and National guidelines. The Plan has been developed following the Strategic Guidelines for the Development of Sustainable Aquaculture of the European Union and the regulations of the European Maritime and Fisheries Fund (EMFF) for the period 2014-2020.</p> <p>The methodology has always promoted the participation of all stakeholders involved: public administrations, producers, traders, research and training centers, NGOs, etc. In addition, the PEACAN provides the necessary synergies with other European, national and regional public performances, ensuring consistency with other instruments and regulations of sectoral, territorial, environmental and financial application, in particular:</p> <ul style="list-style-type: none"><li>· Aquaculture National Strategic Plan</li><li>· EMFF Operational Programme</li><li>· Natura 2000 Network and Marine Strategy.</li><li>· Regional Plan for Aquaculture Management in the Canary Islands.</li></ul>
